WEVAB DISPLAY PRODUCTS

PRODUCT CATALOGUE

WEVAB Basic

AMAZE YOUR CLIENTS

As an entrepreneur in the horticultural sector, you want to amaze your clients, not only with your products and offers, but also with your presentation! After all, around 70% of all buying decisions are made on the spot. Modern consumers want to be informed and to be inspired. WEVAB retail offers you support with improving your in-store communications and presentations, whilst you stay in control of your corporate identity.

Are you looking to improve your store lay-out and the presentation of your products? We would be happy to share our experience with you.

WEVAB Excellent

DESIGN – DEVELOP – DELIVER

Times are changing, and retail is as dynamic as any other branch. Therefore, in addition to our successful delivery programme, we highly value the continuous improvement and development of new presentation products. With every new development, we put the consumer – your client – at the heart of the design. The utilization of the display will be translated into a functional and attractive design.

We are proud to have our own skilled engineers who can make modifications to our standard products or design completely new products to your own requirements. Engineers who are not just capable of creating 3D impressions but can also provide actual, real-scale prototypes. Our consultants will be happy to help you with the incorporation of our proven solutions into your shop fittings, or, alternatively, with the realization of your own and unique display design.

WEVAB Supreme A6

In addition to its skilled engineers and consultants, WEVAB also has its own production facility. Our workplace is equipped with advanced machinery and we manufacture all aluminium products ourselves. That is how we can keep control, be flexible and guarantee a consistent quality. We operate within a network of specialized suppliers and are therefore able to offer you complete end products, regardless of their composition or complexity.

PRODUCTS

Based on decades of experience, we have created several product lines with benches and displays in various standardized sizes. Please ask your consultant for our catalogue.

PRESENTATION BENCHING

Presentation benching constitutes the basis of our range. It is available in various models and dimensions to match your style. Every bench is demountable and can be easily levelled, and comes with a polystyrene ebb and flood bench tray, including one filter and valve.

WEVAB offers three types of presentation benching:

- **Basic**[®]: The benchmark model, with flat aluminium side profiles (height: 120mm).
- **Excellent**[®]: Similar bench with the addition of integrated coloured strips, offering you a completely different look and feel
- **Supreme A6**[®]: Unique presentation bench with the option to integrate DIN A6 printed banners on every side. A friendly shape, finished with round plastic corner pieces.

CARD HOLDERS

WEVAB offers various types of card holders, all suitable for our presentation benches. Our card holders give you the opportunity to create your own unique presentation concept: communicating product information, pricing, sales offers etc. There are card holders available for every common paper size, from DIN A6 to A2.

COMBINATION FURNITURE

To direct attention to a special offer or particular pot-plant combination, WEVAB has developed a unique line of combination furnishing. These flexible tables and racks will improve your profitability per square metre by targeting particular audiences and supporting your own corporate identity.

Our combination furniture is available in various dimensions, and models are easy to adjust.

EXCLUSIVE DISPLAYS

To maintain our leading position in the world of green retailing, we closely collaborate with front runners and leading concept stylists. Together, we have put together a dynamic line of exclusive displays. Designs you will not find anywhere else and that will maximize your profitability per square metre. Each design can be used flexibly and offers "mix-and-match selling" at the hotspot of your store.

TO KEEP YOUR BUSINESS RUNNING, WE MUST ENSURE THAT OUR SOLUTIONS HAVE A LONG LIFESPAN

SALES AND SUPPLY

If you are interested in receiving more information or a quotation tailored to your requirements, or if you want to place an order with us, our sales department will gladly be at your service. We will handle your request with the utmost care and, when possible, plan a get-together to discuss all your needs. The size of your project does not matter. We will be happy to supply you with a single order, but we can also handle your complete, large scale project.

CODEMA can also help you with professional 2D layout plans, 3D modelling, and irrigation solutions.

OUR QUALITY STANDARDS

Codema is an experienced and professional partner when it comes to the production and delivery of long-lasting and custom-made horti-solutions. To ensure that we remain the market leader, we work according to the world's highest standards for horti-solution development and production.

Our commitment to quality is at the heart of all that we undertake. This commitment is evident not only in the development and manufacture of our products, but also in our systems, our assistance, our delivery services and our after-sales service as well as in our quick response to your requests.

When we work alongside you, we share our knowledge and expertise to facilitate increasing the production output and enhancing the performance of your system or equipment.

Discover how our passion for quality and the skills of our specialists can result in better products, greater satisfaction with your production system and reduced costs.

ONE VISION. ONE BRAND.

Since 1958 Codema has provided essential custom-made horticulture solutions. Over the last 58 years, our holding entities have built up an excellent reputation worldwide. They intensively work together under the **CODEMA** brand.
